

CANENA Annual General Meeting 2023

Consejo de Armonización de Normas Electrotécnicas de las Naciones en las Americas
Council for Harmonization of Electrotechnical Standards of the Nations in the Americas

Dear CANENA Members:

On February 22-23, 2023, the electrotechnical safety standards community will come together for the 30th anniversary meeting of CANENA in Mexico City, Mexico, with Canada, Mexico, and the United States being represented. This regional meeting attracts the leading standards experts in building systems, commercial products, connected systems, industrial products, utility products, and lighting systems. CANENA for standards harmonization, a proven model of voluntary collaboration between the electrical industry and regional standards developers to ensure the output reflects regional institutions, their values, and installed infrastructure.

The objective of this gathering is to celebrate and continue advancing regional electrotechnical product safety standards harmonization for equipment intended for the Americas by helping to alleviate the reduction of technical barriers to trade caused by differing national conformity assessment and product installation criteria.

CANENA has developed an exciting program for the CANENA 30th Annual General Meeting 2023 in Mexico City with a focus on the new Mexican Quality Infrastructure Law.

At the 2023 Annual General Meeting of CANENA, we will celebrate the successes achieved and reassess our goals to realize future successes. The new summer comes with renewed hope and enthusiasm for the endless possibilities of what can be achieved. Now is the time to reflect on the role CANENA plays in facilitating market access through a transparent process of regional collaboration to achieve unprecedented market integration. We thank you for engaging your colleagues and joining us at the 2023 CANENA Annual General Meeting.

Registration for the 2023 Annual Meeting and Sponsorship is here:
