Thanks a lot Daniel.

Regarding harmonization of Fuse standards, majority of EFC members have expressed their support to the proposal.

Kind regards,  
Gurvinder

Hi Gurvinder,

I was told there is no ANCE standard associated with the project at this time.

Friendly reminder: For the project on Low-Voltage Fuses – UL 248 - Part 21: Fuses for the Protection of Batteries and Battery Systems, NEMA and CANAME have told me they support the project. I don't believe I have heard from EFC yet. Thanks.

Danny
